The Banquet.

At 6 o'clock the veterans and some
of their friends were entertained at
a bounteous banquet served by the
ladies of the W. R. C. in the base-
ment of the People's church. The
room was prettily decorated and the
service was excellent, the following
menu being prepared: Chicken pie,
mashed potatoes, cabbage salad, bak-
ed beans, brown bread, pickles, dev-
iled eggs, jelly, strawberries, cake, ice
cream, coffee.

During the banquet an orchestra
furnished music and a quartet com-
posed of Mesdames Lennon and Read
and Messrs. Rice and Beach sang
Auld Lang Syne, Tenting Tonight and
Swanee River in a way that brought
joy to the hearts of the old "boys,"
for their voices blended beautifully
and they sang with the spirit of their
honored auditors.

The Campfire.

In the evening the really enjoyable
feature of the day took place. It was
the campfire at the G. A. R. hall,
where, after some music by the or-
chestra and the transaction of a little
business the soldiers recalled many
happy and some tragic hours of their
noble service in the field.

Following the orchestra selections
the ladies of the quartet were re-
membered in a substantial way by the
veterans, Comrade Lowrey making
the presentation speech. Mr. Beach
delighted all with his beautiful bass
solo, Miss McWethy accompanying
him, and President Noble called the
attention of the veterans to a copy of
a paper, "Our Regiment," published
by the "boys" when in camp at Rol-
la, Mo., July 22, 1861. Jed Shaw of
company A was the editor.

Financial Report.

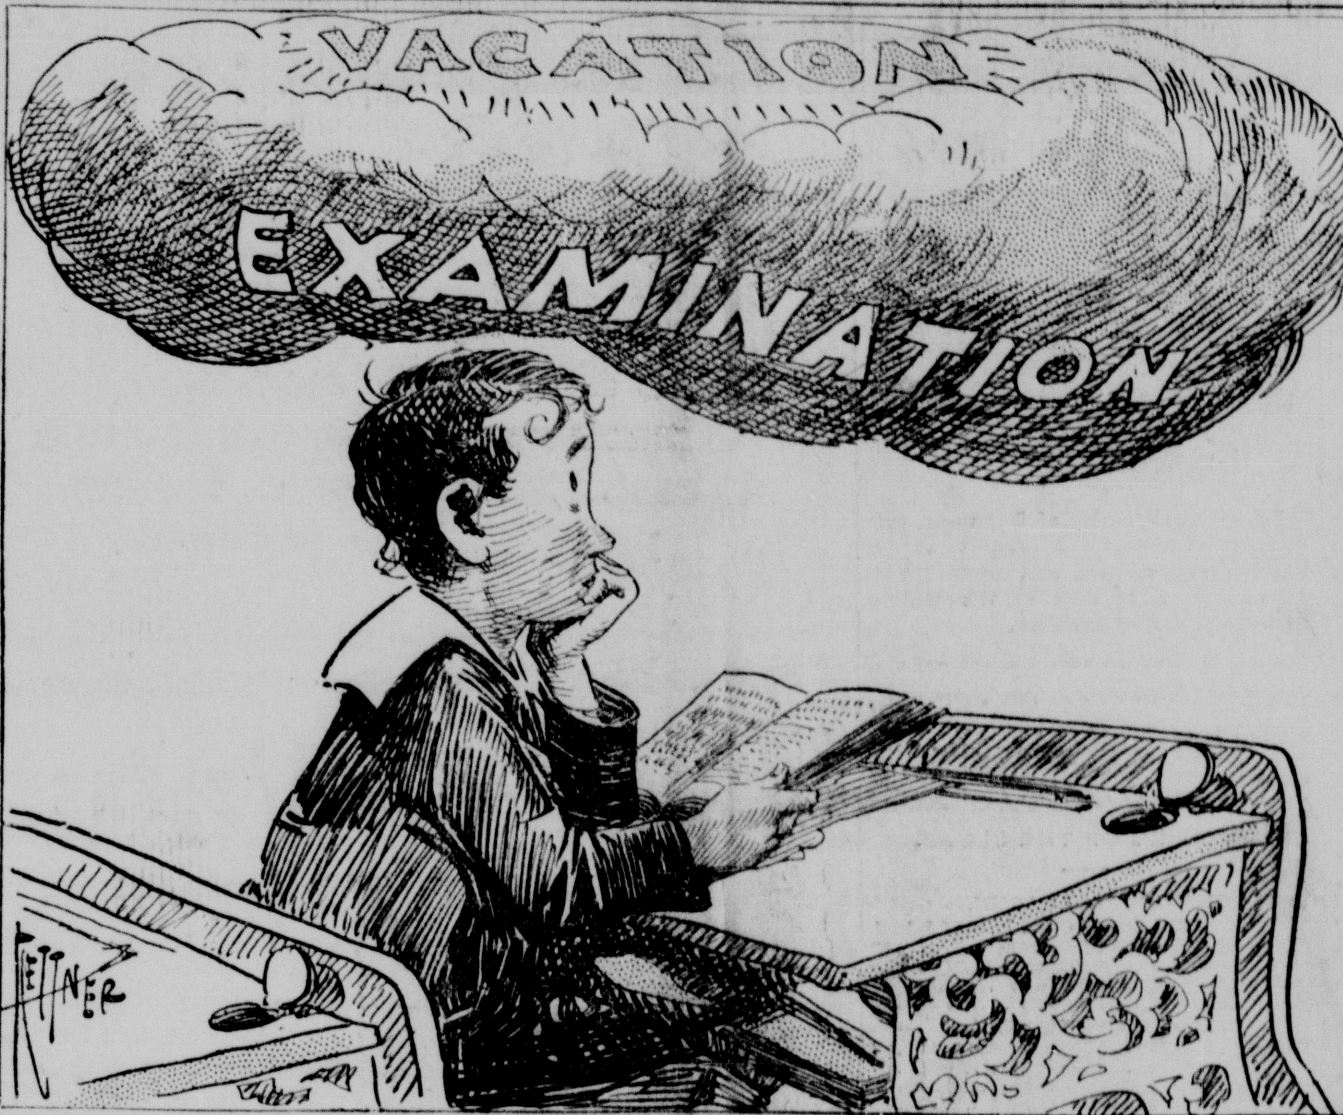

Sec. Hevenor submitted his finan-
cial report which showed receipts of
\$51.50 and expenditures of \$32.75,
leaving a balance of \$18.75, which
was given to Mr. Hevenor for his
work during the year. The receipts
were as follows:

LEASED BALL PARK FOR THREE YEAR TERM

DIXON BASEBALL & AMUSEMENT
ASSN. CLOSED THE NEGOTIA-
TIONS LAST EVENING.

AT SIXTH ST. AND LINCOLN AVE.

Block of Ground. Owned By Doctor
Stephens Leased By Association
—Work to Start.

The Dixon Baseball & Amusement
association, at a meeting held at the
Dixon Inn last evening, completed ne-
gotiations which have been in pro-
gress for several weeks for securing
a park, by leasing for three years
from Dr. Stephens, a block of ground
at the corner of Sixth street and Lin-
coln avenue, and at once work will
be commenced to fence the new ground,
and a grand stand and lay out the
diamond.

The grounds, which are the most
suitable of any available tract con-
venient to the city, are perfectly level
and will provide an excellent park of
ample dimensions. They are located
three and a half blocks west of the
street car line, and can be very easily
reached.

To Start Work.

Early this morning enthusiastic
workers under the direction of Rob-
ert Ayres staked out the grounds and
as soon as possible work will be be-
gun on the fence. In the meantime a
committee will commence work to se-
cure funds with which to equip the
grounds with fence and stand.

The promoters of the new organi-
zation have no idea of it being a profit-
making affair and all of the pro-
ceeds, aside from those necessary for
the maintenance of the park, will be
divided among the players of the city
league, the schedule for which is now
being prepared.

MERCHANTS DISCUSS MEMORIAL DAY HOURS

stores will follow the plan of former
years, when the holiday fell on Sat-
urday, that of closing from 2 until 4
p. m. the hours of the exercises. Def-
inite action will be taken some time
during the coming week. Another
meeting will be held Friday evening,

Justice of the Peace Hannaken, for

that the arrest and fining of Smith,
will have the effect of causing a
closer observance of the law.

and very appropriate music was
rendered by a quartette, Mesdames
Ballou and Read, and Messrs. Rice

The remains of the beloved Dixon-

noon, in the hall of the rooms of
the club that he so loved, surround-

on the train he saw the old lady,
"who apparently already had one

wealth could not mean much. He
said "I attacked her, but would not
have tried to kill her if she had
not screamed. When I grasped her
valise, I lost my reason and fired."
The condition of Mrs. Flavelle was
not much improved today.

LANDIS DECIDES FOR DIXON ICE COMPANY

ATTORNEYS IN DIXON PURE ICE
CO. VS. SANDUSKY CEMENT CO.
IN ARGUMENT.

CASE IS TO BE APPEALED

Dixon Man Claims His Ice Harvest
Was Ruined by Warm Water From
Cement Plant.

BULLETIN 3:50 P. M.

Judge Landis is rendering his find-
ings in the case. He says that the
proof shows that the Dixon Pure Ice
Co. has suffered damage from the
hot water allowed to run into the river
by the Sandusky Portland Cement
company. The case will probably go
to a higher court. The decision of
Judge Landis will be published in
full Monday.

Judge Landis found for the com-
plainant, the Dixon Pure Ice Com-
pany, and against the Sandusky Port-
land Cement Co.

In the Ice Co. versus the Sandusky
case in the federal court today Judge
Kenesaw Mountain Landis heard ex-
tensive arguments from the attor-
neys.

At a late hour the attorneys were
still arguing the case, but the indica-
tions are for completion this after-
noon, with a strong possibility of im-
mediate decision.

Judge Landis convened the federal
court in the Lee county circuit court
rooms again this morning at 10
o'clock to hear the arguments in the
case of the Dixon Pure Ice Co. vs. the
Sandusky Portland Cement Co., the
trouble being over alleged damages
from warm water that is emptied into
Rock river at the cement company's
plant by that company, and which
floats down into the ice fields owned
by the complainant in the case and
which the complainant complains in-
jures his ice harvest to a great ex-
tent.

Attorney Clyde Smith, for the com-
plainant, in his argument this morn-
ing, declared, in brief, that the Dixon
Pure Ice company should be awarded
damages for previous alleged injury
done to the ice fields by the water
from the cement plant and the con-
tention of the complainant is that the
cement company should be enjoined
from depositing in the river, the wa-
ter in its state of being warmer than
water in the stream. They suggest
that if the company wished to, they
could easily devise a means of run-
ning the water for some distance, ex-
posed to the air, so that when it was
finally deposited into the river it
would be the same temperature as the
water in the river.

The argument of Attorney Smith
was brief and he closed after forty-
five minutes. Attorney E. H. Brewster
for the defendant commencing on his
side of the argument.

The defense contended that under
the law, and they read extracts of
many cases to support their conten-
tion, a riparian right owner was pri-
vileged to make use of the water in a
stream for any purpose and reason-
able use, even to a degree of damage
to the riparian right owner in the
stream below.

Attorney Parker of Chicago for the
cement company followed Attorney
Brewster in an argument of consid-
erable length, in which he took up
the facts of the case and endeavored
to show the court why his company
should not be held liable for damages.
Atty. Parker declared, among other
things, that not only did he not be-
lieve that the warm water from the
cement plant did not injure the ice
harvest, but he maintained that even
if it did there was not enough material
damage to indicate why the ce-
ment company should be held liable.

He declared that the neutral heat
from the bed of the river, warming
the water and the bottom, and the di-
verting of the water to the top, was
as much responsible as anything for
the open water and non-formation of
ice, and said that it was natural at-
mospheric conditions and not water
from the cement plant that made the
poor ice harvesting years.

worth is in a critical condition at the

ENGLISH POLO TEAM SAILS FOR AMERICA

THREATENED FIASCO RELIEVED
BY DEPARTURE OF PLAYERS
TO-DAY.

INCLUDES GREATEST PLAYERS

While Team is Admittedly Not The
Strongest Possible, It Has
Strong Personnel.

(Associated Press.)

New York, May 23.—With the sailing of the English polo team for this country today, the American polo authorities will be relieved of anxiety regarding a situation which at times promised to develop a fiasco in the first of the International team contests of the present season of sport. Less than ten days ago it appeared as though the match was to fall through, owing to the inability of Lord Wimborne to secure a representative team to compete for the cup challenged for by the Hurlingham Club. Great pressure was brought to bear upon the factions whose petty bickerings threatened to disrupt the team and the party which sails today includes the following players and substitutes: Captain H. A. Tomkinson No. 1; Major T. Y. D. Bingham, No. 2; Major F. W. Barrett, No. 3; and Captain Leslie St. C. Cheape, back, with Major B. H. Mathew-Lannowe, and Baron Wimborne, as substitutes.

While the team is admittedly not the best combination in England, having been repeatedly defeated by Walter S. Buckmaster's four in practice games, it includes players who are ranked with the leaders of English polo. Whether this combination is strong enough to wrest the International Polo challenge cup from the possession of the American defenders is a question which is being argued in polo circles throughout the two countries. Experts maintain that it is not as strong as the English team of 1913 and the same contention is held when the American teams of 1913 and 1914 are compared. There is no denying the fact that the withdrawal from active play of Harry Payne Whitney weakens the Meadowbrook fur. Furthermore there is no substitute now being considered for his place, who is within several goals of Whitney's class. Broadly speaking both English and American teams are outclassed at present appear to be thirty per cent weaker than was the case last June, when the United States team won by 10 1/2 to 7 1/4 in two straight games.

Under these conditions much will depend upon the team play and conditions of the ponies in the final analysis and in these respects the cup defenders appear to have the advantage. The team that Baron Wimborne took to Madrid has been disrupted and remodeled less than a month previous to the matches. Whitney's decision to drop out was known months ago, and provision made for the breaking of a suitable substitute and there is a general impression among poloists that should the American team be defeated in the opening game, Whitney would be seen in the saddle on the second day of play.

So far as the ponies are concerned it is an axiom of polo that the invading team always plays under a handicap in this respect.

Despite the handicaps, the challenging team is not to be lightly considered. According to the English handicapping system, the four as named at present, consists of two top rankers and two third classification of players. Barrett and Cheape are ten point, or limit men, with Bingham and Tomkinson rated at eight points each. Major Mathew-Lannowe is a nine point player and Lord Wimborne is rated at seven. The English and American handicapping systems differ in the respect, that while nine points is the United States limit, the Hurlingham top ranker is a ten point player. Therefore, while the Waterbury brothers and Devereaux Milburn are nine points players in the United States list they are ranked as one point higher in English handicaps. At the present time, C. H. Phipps is generally conceded as being the most likely player to replace Whitney. He is rated at six in the United States list, which would give the American team an advantage of 8 1/4, while the English four, under the American team an advantage of an average of 8, just 1/4 point below the United States four.

The arrangement of the English four clearly indicates the fact that it will be stronger on defense than offense. The placing of Cheape and Barrett at No. 3 and back respectively, is in accordance with the English system of play, where the best players gravitate to the hear line in order to better direct the attack and defense of their team mates of less experience, yet reserving the privilege of rushing to the fore when the possibilities appear to favor a score by concentrated attack. All the players are experienced poloists, even though not the best four that might be selected from the Hurlingham list. Every one has an excellent record as army team players, although Captain Cheape is the only member of the combination who has figured in an International cup play. He was a member of the 1911 and 1913 English teams. Major Barrett was a substitute on the 1911 and 1913 did not secure an opportunity to play in one matches of that year.

HIGH SCHOOL TEAM PLAYS IN DEKALB

UNION PLAYERS GO TO BARRED
CITY AND HOPE FOR A
VICTORY.

Nine husky young athletes known as the Dixon Union High School ball team journeyed to the city of De Kalb this morning, where they had scheduled a contest with the High School team of that place.

The boys left with high hopes of copping the fruit and there is no reason why their fond young expectations should not have been fulfilled, as the entire team was present.

FIVE HELD IN MURDER CASE

Minister Who Accused Conley and Burns Aid, Included.

Atlanta, Ga., May 23.—Five indictments were returned by the grand jury in the investigation of alleged bribery in connection with the affidavit of Rev. C. B. Ragsdale, accusing Jim Conley of the Phagan murder. Those indicted are Ragsdale, R. L. Barber, Arthur Thurman, C. C. Yedder and Dan Lehon, aid of Detective W. J. Burns.

City Feeds Idle "Army."

Minneapolis, May 23.—Under fairly good military discipline, an "Army of the Unemployed" encamped today in the Bass Lake yards of the Milwaukee railroad in the outskirts of Minneapolis. There are 164 men in the "army." The "army" was forbidden entrance to the city, but the city sent out 200 loaves of bread, one gross cans of beans and 25 pounds of coffee. The "army" will move on toward Chicago tomorrow.

For many years Piano manufacturers have tried to reduce the selling expenses of pianos. The old way of paying solicitors, paying music teachers' commissions and engaging great artists to play their pianos at fabulous sums are being eliminated and now it is the question of the best advertised piano and one in which the purchasers are given the greatest possible value. This is the age of co-operation and the manufacturers correctly believe that the best way to introduce their product is to spend the advertising money in making special offers to the people rather than employing world famous demonstrators at fabulous expense and making the people pay for such methods by asking a heavily inflated price for the Piano.

OLD CY

Red McGhee says:

Some guys wear heroes' crowns like hats or balmacaans or long cravats. They last a month, a year, or maybe several seasons long, like some folks sing a long-dead song an' keep it from its bier. Con o'er the heroes in your mind. Just sift 'em down and you will find the list gets mighty slim. There's one old top who always sticks. He's got the key to all time's tricks—you gotta bow to him.

It's Ol' Cy Young, you called it right. Ol' Father Time ain't like to blight the fame o' that ol' boy. When I was just a little kid the pitchin' stunts that ol' boy did could bring a mourner joy. He's pitched so long the count's been lost, he quit a winner—not a frost like some dimmed stars go out. Not pitchin' now?—I know he ain't. He quit still wearin' his war paint and none his prowess doubt.

Five hundred wins! Five hundred—say, there ain't another man today can duplicate that mark. And I'll just bet the grand ol' man can win some more—I'm sure he can in any ol' ball park. The Tuscarawas county lads all bow to Cy just as their dads did years and years ago. In old Paoli, his home town, his hat will always be a crown. There ain't none greater, bo.

Only \$5.00 for this extremely stylish wash skirt

(Designed by the Wooltex Style Bureau)

At our suggestion, the Wooltex designers have provided us with a line of very modish and fashionable wash skirts.

The skirt shown in the picture is one of the handsomest skirts that we have seen this year made of washable materials.

It has the pointed belt effect in front, with a double ripple flounce running diagonally around the skirt.

Although it cannot bear the Wooltex label, because it is not made of wool fabrics, this skirt has all the designing talent and excellent workmanship behind it for which the Wooltex Style Bureau is noted. It is made of materials that have been shrunk in the piece before being cut.

Compare this value with any other skirt offered at the same price and you are certain to give this one the preference.

REPUBLICAN OPPORTUNITY.

Republicans of the Sixteenth congressional district should lose no time
in organizing for the fall campaign, says the Bureau County Republican, and
this applies as well to the "Old Thirteenth." The primaries will be held on
September 9, and all petitions required to be filed with the secretary of state
and county clerk must be in not later than July 31.

On November 3, Illinois will elect a United States senator and 27 rep-
resentatives in congress. The next general assembly probably will re-dis-
trict the state congressionally and senatorially. The state will elect a treas-
urer, superintendent of public instruction and university trustees, while all
the counties will fill important county offices.

The primary law provides specifically for the election of committeemen
and for the organization of conventions, but neither committeemen nor con-
ventions organize public sentiment nor elect men to office. Election laws are
restraints merely; they supply no motive power.

A powerful political combine has been formed by Illinois democratic
bosses to sew up the state. With the acquiescence of President Wilson,
Secretary Bryan is dictating our politics and policies. For the first time in
years the federal and state administrations are united, and are building up
a powerful political machine, such as never was known in the old days of
machine rule. When the republicans were in power the state and federal
organizations were independent. Today we have the corrupt Harrison-
Kenna-Coughlin machine in Chicago co-operating with Secretary Bryan on
one hand and Governor Dunne on the other. Every pound of democratic pat-
ronage is being concentrated.

Republicans should not be squeamish about organization. Everything
that succeeds nowadays is highly organized. Republicans will appreciate
their opportunity for public service as checks on democratic incompetency,
extravagance and socialism should come out into the open, organize under
their historic title and give objectors against present-day socialism oppor-
tunity to give effective expression to their wishes.

Democratic candidates for United States senator in Illinois are preach-
ing sedition and making war on legitimate business. Congress has become a
continuation performance of demagoguery and agitation. It has no parallel for
turbulence and incapacity in the history of our country. Chicago will soon
demand a constitutional convention for Illinois and, aided by the democratic
machine will, if permitted, engraft upon Illinois a charter which will ren-
der us helpless and hopeless as Colorado.

Various republican clubs should be organized in every township in the
country. Congressionally and senatorially, this district should be a part of
an organization equipped to cope successfully with the new Illinois Tam-
many.

THE "WILD WOMEN" OF ENGLAND.

Of all the things running around outside that ought to be locked up in-
side of a bughouse, the militant suffs of Merrie England surely deserve the
blue ribbon. As idiots they are developing wonderfully. Dignified old
England has never been in the limelight so frequently or cost the newspa-
pers so much in telegraph tolls as since the pride of the nation, the militant
suffragettes, took the center of the stage.

They now have a little auxiliary to the militant suffs called the "Wild
Women." From all accounts the "Wild Women" are supposed to be just a
little bit worse than the "Arson Squad," the "Brickbat Brigade" or the
"Manslaughter Circle." The "Wild Women" are supposed to do anything
that seems a little too rough or unladylike to the timid hearts of the fair
members of the bomb throwing department, etc.

Say, wouldn't you like to meet a squadron of the "Wild Women" in a
lonely woods on a dark night? They'd likely enough make salad out of
you, or perhaps stuff you with bread crumbs and bake in a slow oven. Oh,
they are a great credit to their sex, those militant suffragettes. A being
with such a mind as they display should surely be trusted with the power of
the ballot. Not!

TO LIVE IN OUR MEMORY.

Eli has gone and Dixon has indeed suffered a loss. His sweet mem-
ory will cling while the memory of those who knew him lasts, and this has
been a better Dixon for his having lived here. Our sympathies go out to his
dearest ones, though, in fact, it seems that we all are one big sorrowing
family, we citizens of Dixon, bound together in our common grief.

At the Elks club yesterday afternoon we listened to beautiful words
of comfort and a fitting eulogy, if words can do him justice. Tears were
for Eli, and loving, tender thoughts when the little man was laid in
his last resting place. Strong men cried quietly in their grief, and they
were frankly unashamed. The hopelessness of our own selfish feeling of
irreparable loss is somewhat softened by the knowledge that if there is a
reward in Heaven, Eli Rosenthal will get it.

The Carpenter

BY WALT MASON

With shining weapons newly sharpened, the carpenter goes
forth to carpent. No work of his is e'er a fizzle, but every product
of his chisel, and of his plane and saw and mea-
sure, increases human peace and pleasure. Oh,
where would be your vine-clad cottage, in which
you hit the eggs and pottage; and where would
be your stately palace, where you drink grape
juice from a chalice; and where would be the
school and college, imparting forty kinds of
knowledge, but for the man whose saw and ham-
mer kick up all day so glad a clamor? The man
who nails the boards and shingles deserves all
praise, in prose and jingles; he builds the homes
in which we tarry, in which we dance and sing
and marry. He builds the church wherein the
pastor explains the doctrines of the Master, our
world-worn spirits elevating; he builds the rinks where we go skat-
ing; he builds the bleachers where we gather, to see the game, the
whole blamed slather; and when we're done with this world's mud-
dle he builds the box in which we cuddle. The carpenter, in all
the ages, has done far more than bards or sages to make the world
a better planet than 'twas when Eve and Adam ran it. He builds
the homes, while t'other fellows just sit around and work the
bellows.

ed him for president. What until
Teddy bats old Huerta out of his
job and shows us a clean error col-
umn. So far a good many boneheads

game, and nobody pulled one until he

WE NEED AUTHORITY

This country needs a revival of
the spirit of obedience to authority.
Before we march on Mexico to put
an end to its rapine, bloodshed, tur-
moil and disorder we should set a
more shining example of orderly
government and of protection for
the lives and liberties of our own
people.—Bloomington Pantagraph.

CEIVED IN CHICAGO FIRE
IS DOUBTFUL.

(Associated Press.)
Chicago, May 23.—One of the 49
who were seriously injured in the
explosions and fire yesterday in the
building occupied as a saloon by
Gazzola Brothers, three firemen,
Bouchard, Hopp and Moran, may
die. Twenty-four of the injured
were firemen.

Chicago, May 23.—Twenty firemen
and scores of spectators were injured
when two mysterious explosions
wrecked a four-story burning building
at 1342 West Madison street. Hun-
dreds of spectators, who had gathered
in the neighborhood to watch the fire-
men at work, were thrown into a
panic. Within a radius of two blocks
buildings rocked and window panes
were smashed. Twenty firemen, who
had been at work on the second and
third floors, were blown out of the
building. Two of them are believed
to have been injured fatally. Flying
glass and pieces of wood and brick
swept West Madison street in front
of the burning structure like shrapnel,
cutting men, women and children who
were packed in the street. Many women
fainted and were trampled upon
by the terror-stricken crowd. The
property loss to the building is placed
at \$75,000, but neighboring houses
and the stores across the street suf-
fered heavy damage from flying de-
bris.

the same.

SHACKLETON READY FOR HIS FIRST TRIP

PRELIMINARY TRIAL UNDER ARCTIC CONDITIONS TO BE MADE IN GLACIERS.

NEW SHIP IS "ENDURANCE"

Boat Built in Norway Will Arrive at the London Docks This Month.

(Associated Press.)

London, May 23.—With the thoroughness which has always characterized his work, Sir Ernest Shackleton is about to make a preliminary trial expedition under Arctic conditions in the glaciers of Norway. This will be for the special purpose of testing the rations for his trip across the Antarctic continent, which he expects to make in four and a half months' time. No party ever started out without food depots, to make such a distance as that in a straight line, but Sir Ernest and his men have made special preparations for the attempt.

They have, with the aid of the Royal Army Medical Corps, evolved the "perfect ration." It will average only 35 ounces daily, as compared with the three pounds or more consumed by the average man, but it is believed it represents the highest nutritive value for polar travel.

Sir Ernest will be accompanied by five members of his staff when he goes to Norway to conduct experiments with these rations and also to test his tents and sledges. The party will don polar kit and travel among the glaciers. While the cold will not be as intense as in the polar regions, the country will furnish the same sort of sudden blizzards as are experienced in the Antarctic.

The party will test the effect and potency of the rations in most detailed fashion. Such an experiment never has been made before.

Shackleton's new ship, the Endurance, has been almost completely fitted and will arrive at the docks in London this month. She is 18 feet longer than his last ship, Nimrod and is a beautiful specimen of wooden ship building, and probably the last of her class that will be constructed. Her whole keel is made of solid oak five and a half feet thick and her sides are two feet thick. She belongs to the barkentine class, has the latest triple expansion engines, and will steam ten knots an hour. She is fitted to consume both oil and coal when in the ice oil will be substituted for the coal, which will mean economy if she is delayed in the pack, as the boilers can be kept warm and full heat generated quickly. When the oil has been used the tanks will be filled with water ballast. The endurance will take on 100 tons of coal briquettes at South Shetland Islands, so she will enter the Weddell sea with full bunkers.

The second ship, Aurora, intended for the Ross Sea side of the expedition, has been purchased and will be delivered at Hobart, Tasmania, the last of August.

The Endurance, which is to operate on the opposite side of the Antarctic, will leave early in August for Buenos Aires, whence she will finally start for the Antarctic base in October. Most of the members of the expedition will leave England in the Endurance but Sir Ernest Shackleton is to leave later by mail steamer to join the ship at Buenos Aires.

The dogs, which constitute an important factor in the expedition, are a cross between a wolf and Scotch stag hound. The lightest of them will turn the scales at 80 pounds, whereas the heaviest dog with the last Shackleton expedition weighed 45 pounds. They have been selected by the experts of the Hudson's Bay company and will be in charge of one of the most experienced drivers from Canada, who was chosen by the Commissioners of the Northwest Mounted Police.

The latest appointments to the expedition staff are Sir Philip Lee Brocklehurst, who was with Shackleton in 1907 and 1909 and who made the first ascent of Mount Erebus, and his brother, Lieut. Courtney Brocklehurst of the 11th Hussars. Hundreds of applications for positions with the expedition have already been received.

WANTS EMPLOYEES WITH RED HAIR.

A Chicago business man advertises for red haired employees and says that people who have not auburn locks need not apply. In referring to the advertisement, this man says: "All the red-haired people I ever met were bright, ambitious and reliable, so I decided to try the experiment of hiring lads with hair of that color, exclusively."

ALIENATION SUIT TO BE TRIED HERE

GEORGE KOROPP SEEKS \$25,000 FROM CHARLES F. HOUSH ON SERIOUS CHARGE

George R. Koropp, who yesterday appeared in Magistrate's Kent's court here, as complaining witness against Charles F. Housh, of Macomb, formerly of Knoxville, whom he charges with having improper relations with Mrs. Koropp, at Compton, last July, returned to Chicago this morning to consult his attorneys in regard to a suit for \$25,000, which he has filed against Housh in the Lee County Circuit court, for alienation of his wife's affections.

Housh, who was arrested at Quincy on Thursday by Sheriff Leitz of that county, was brought to Dixon yesterday by Sheriff Phillips, the trip from Mendota to Dixon being made in an automobile. He was accompanied by Attorney Harry Miller, of Peoria, and on being arraigned before Magistrate Kent, entered a plea of guilty, on which he was fined. As he was entering an automobile, after pay fine and costs, he was served with the papers in the damage suit, which will probably be tried at the September term of the Circuit court.

LIVED ON RAW EGGS

Mr. Richard's Experience With Different Diets. Peaches and Buttermilk for Three Years.

Cecilton, Md.—Mr. George Richards, of this place, during the past 12 years, has probably tried more different diets than the average person would ever use in a lifetime.

What he has to say about his experiments, must therefore be highly interesting to anyone suffering from indigestion or stomach troubles of any kind.

He says: "For more than 12 years, I suffered with stomach troubles, and paid hundreds of dollars for doctor bills and medicines. I was also operated on for piles.

I lived on dried peaches and buttermilk for nearly three years. The only thing that would not give me pain was raw eggs. I was a physical wreck. I could not sleep, and was as near crazy as a man could well be.

I must say that after taking two 25-cent packages of Theodore's Black-Draught, it did me more good than all I ever spent for other medicines.

I have been working daily on the farm ever since, and I am as hard as iron." This purely vegetable remedy has been in successful use for more than 70 years. Try it. But be sure that it's "Theodore's."

WEST BROOKLYN NEWS

Bear in mind the band concert on the streets Saturday night, May 23.

A social dance will take place in the opera house immediately after the concert Saturday night.

Attend the auction sale at the Mrs. C. L. Smith residence on Saturday at noon commencing at 1 o'clock sharp. All her household goods will be offered for sale to the highest bidder.

George Hazelman was here Wednesday.

W. J. Long and family, Mr. and Mrs. Oliver L. Gehant and C. P. Henkel motored to Harmon on Sunday, and were guests of friends and relatives.

Town has been rather quiet this week on account of the farmers being in the fields.

Charles Barnickel motored here on Wednesday.

J. U. Weyant and H. F. Senneff of Dixon, members of the F. X. Newcomer firm, were visitors in town Tuesday.

The village water works system has been compelled to pump at night this week on account of the electric current being shut off during the day. Mr. Long has been sitting up all night long so as to give the people good service and to make up for the lack of electricity during the day time.

Miss Carrie Gallisath was calling upon friends in West Brooklyn Tuesday.

Mr. and Mrs. John C. Henkel and daughter Helen and Miss Celia Byrne and Frank Henkel motored to Harmon Sunday and were guests of Jas. Morrissey.

The F. D. Gehant & Son hardware firm has installed a new gasoline tank at their store for the convenience of their patrons. The tank holds over 500 gallons and will be equipped so that all a car needs to do is to drive alongside the street and wait a few seconds for its supply. It is the latest machine made. This makes four gasoline filling stations for West Brooklyn so no autoist should wait for gasoline here.

Mrs. Mary Morrissey and Mrs. Byrne of Harmon visited relatives in our town and vicinity Tuesday. The day being the last of the school year at the Zinke school house where Celia Byrne teaches, they visited for most of the day at that place. A picnic was given by the teacher for her pupils, and a happy day was spent in the beautiful grounds surrounding the school and neighboring fields. Among the other dainties served as refreshments and relished by the children were several gallons of ice cream taken from town beside delicious cakes and pastry. Miss Byrne has been engaged to teach this same school for another year. Her school was very successful during her year's leadership and this has induced the directors to continue her there with increased salary.

Much excitement was caused Wednesday morning on Main street when a team of horses hitched to the dray refused to haul their load further. It took about fifteen men half an hour to convince the team that they were wanted to proceed with their load. There was no danger of exceeding the speed limit until they started again, and whether or not they were trying to make up for lost time, they went to beat the cars.

F. E. Halsey was here Monday on business.

Mr. and Mrs. Amel Henry and Miss Helen Meeks motored to Grand Detour Sunday and spent the day at the quaint old town.

SAGE TEA PUTS LIFE AND COLOR IN HAIR

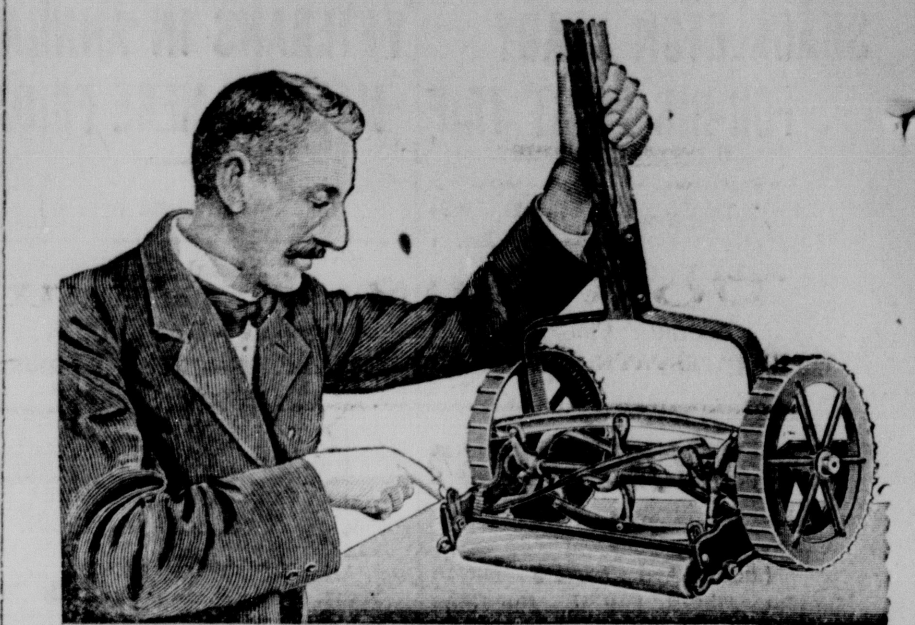

Don't stay gray! Sage Tea and Sulphur drenches hair so naturally that nobody can tell.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy" at any drug store. Millions of bottles of this old, famous Sage Tea Recipe are sold annually, says a well-known druggist here, because it drenches the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray, becoming faded, dry, scraggly and thin have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful—all dandruff goes, scalp itching and falling hair stops.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

THE DIXON ROTARY LAWN MOWER

"DIXON"

THE LIGHT RUNNING, HEAVY DUTY LAWN MOWER.

Guaranteed Equal to the Best Made.

Made in Dixon. Boost! It is Dixon. Every lawn in Dixon should have a mower on it. Your dealer should have them. If he has not got them call us and we will supply you.

We wish to draw your attention to a few of the improvements in the Dixon Lawn Mower over all other makes.

First, to the floating bed knife bar which is swiveled on the rod that ties the back end of the mower securely together, and with the other tie rod at the front makes the most rigid frame to be found in lawn mowers.

You will notice at each back corner of the bed knife a compression spring. These press the cutting edge of the bed knife up against the reel, or revolving knife, always adjusting itself.

We make the Dixon with a thrust ball bearing which is the same as is used in automobiles, making it the best.

The knives throughout are crucible steel. The lower bed knife is crucible lip steel.

The Dixon Mower will cut heavy grass without raising the handle and without lifting up behind and choking.

BECKER GUILTY IN FIRST DEGREE

Jury, After Deliberating Four Hours, Convicts Former Police Lieutenant.

PENALTY IS DEATH IN CHAIR

Wife Collapses When Verdict Doom-ing Husband to Chair Is Learned— Counsel for Convicted Man Promises Appeal.

New York, May 23.—Charles Becker, former lieutenant of police, was found guilty of the murder of Herman Rosenthal.

Becker, once a police lieutenant, was found guilty of murder in the first degree. Only a pardon or interference again by the court of appeals can save him from following to the electric chair the four gunmen who shot Rosenthal.

One ballot decided Becker's fate. It was unanimous for conviction. Tears streamed down the foreman's face as he announced the decision.

They had agreed that the corroboration which the district attorney failed to present at the first trial to support the stories of Rose, Vallon and Weber, the three accomplices who turned in the witnesses.

Week's Stay Granted. Becker's counsel announced that he would appeal and gained a week's stay for the preparation of his future campaign.

Becker and his wife were in a room adjoining the sheriff's office when the jury reached a verdict. Mrs. Becker was not permitted to accompany her husband to the courtroom.

Becker walked brusquely through the courtroom to the rail facing Justice Seabury and gripped it with both hands.

"Foreman," the jury was asked, "have you reached a verdict?" Blagden, the foreman, brushed his eyes with a handkerchief already damp. "We have," he said softly. "We find the defendant guilty as charged in the indictment; guilty of murder in the first degree."

Becker Controls Self. Becker's face was gray as he gripped the bar with all his strength. Big muscles in his neck jumped out in heavy rolls. His great frame swayed and drooped; then, with quick control, he became himself again.

Mrs. Becker collapsed upon learning the verdict and was still sobbing when her husband was led into the room. She threw her arms around his neck and buried her face on his shoulder.

Handcuffs were then locked about his wrists and he was taken to the Tomb.

Justice Seabury announced that he would impose sentence on May 29.

CABINET DISCUSSES STRIKE

President Wilson's Advisers Consider Colorado Situation.

Washington, May 23.—At the cabinet meeting the time was spent discussing the Colorado mine situation. The plan to close the mines and compel both sides to submit to arbitration proposed by Judge Lindsey was considered, but no decision was reached. The president, it was said, is still of the opinion that the federal troops cannot be kept in the strike zone indefinitely; that the state authorities must take steps soon to restore order so as to permit the withdrawal of the federal troops. No immediate withdrawal is in prospect, however.

SILLIMAN AT CAPITAL

Will Leave Mexico City for Vera Cruz Today.

Fellow Prisoner of U. S. Vice-Consul Tells of Experiences in Vermin-Ridden Dungeon.

Mexico City, May 23.—John R. Silliman, vice-consul of the United States at Saltillo, about whose safety there has been grave disquiet in Washington for more than two weeks because of the failure to get any direct word from him, arrived here on a train from the north. He registered at a hotel as "companion" of J. De Gener, who came from San Luis Potosi, but he went to the Brazilian legation to stay. He will leave today for the States by way of Vera Cruz.

The delay in his arrival was due to the fact that the railroad tracks were torn up at several points and also to several encounters which the military escort of 300 men provided for him had with rebel bands.

Galveston, May 23.—After spending ten years in Mexico, the last 15 days of which he spent in a cell three feet square, underground, damp and vermin-ridden, next to the cell occupied by American Vice-Consul Silliman of Saltillo, Dr. Herbert M. Saunders arrived here, bringing with him his wife and three children.

In relating his experiences Doctor Saunders said:

"At the jail I was searched and my money, watch and hat were taken from me. I was struck several times and literally thrown down two flights of stone or cement steps and locked up in a dirty, unlighted cell three feet square and six feet high, in which it was impossible to lie down or rest."

"I was left alone for more than 24 hours without food or drink. On the third day I was there Mrs. McMillan, wife of the English consul, sent me a mattress and a pillow and some food. The mattress kept me off the wet floor and gave me a little comfort, while with the pillow I was able to sleep a little crouched down in the narrow cell. Mrs. McMillan sent me a basket of food every day after that until I was released."

"A Mexican detective came to Silliman's cell with the vice-consul's secretary, a Porto Rican, and forced the vice-consul to instruct the secretary to open the safe at the American consulate. All of the papers and valuables were taken from Silliman's safe, including the American code book."

"When I left the prison on May 6 I bade Silliman good-by and he was cheerful and hopeful, but suffering severely from dysentery, which he had contracted from staying in the insubstantial and damp cell."

Doctor Saunders was a surgeon in the United States army from 1899 to 1902.

SENATE NEARS TOLLS VOTE

Kern Predicts Repeal Bill Will Pass by Majority of Ten.

Washington, May 23.—Democratic leaders in the senate are confident that the Panama canal tolls exemption repeal bill and the arbitration amendments would be disposed of next week. Senator Kern, leader of the majority, said a vote would be taken May 28 or soon afterward. He added that the repeal bill would be passed by a majority of at least ten. Prospects for the success of an arbitration amendment are acknowledged to have been dimmed by speeches of the last two days. The administration is said to center its support on the amendment proposed by Senator Simmons, declaring that the United States waives no rights over the Panama canal.

Navy Balloon Is Fast.

Berlin, May 23.—The navy's new dirigible balloon L-3 arrived at Potsdam after a 34-hour trip from Friedrichshafen. An average speed of nearly sixty miles an hour was made. At one time it reached a speed of 90 miles an hour with the wind. Over Heligoland it was in wireless communication with dirigible L-24, which was over Friedrichshafen.

Slate Roofing

I have unloaded a car of the best quality of Bangor sea green slate at the Raymond coal yards. If you are building or roofing it will pay you to put on slate as it will last as long as the building stands at a trifle more than a shingle roof and will be a safeguard against fire. Ask your insurance agent about it. It will be pleased to quote prices. Telephone call 14440.

Well Known Dixon People Tell It Tell It So Plainly

When public endorsement is made by a representative citizen of Dixon the proof is positive. You must believe it. Read this testimonial. Every sufferer of kidney backache, every man, woman or child with kidney trouble will do well to read the following:

Mrs. Emelle Bott, 811 College avenue, Dixon, Ill., says: "We recommend Doan's Kidney Pills just as highly now we did some years ago when we first gave a statement in their praise. I was rheumatic and most of the pain was through my kidneys. At night I didn't sleep well and in the morning was all tired out. I was nervous and dizzy and my kidneys were out of order. I tried different remedies but was not helped until I used Doan's Kidney Pills, which I got at Leake Brothers company Drug Store. They made me strong and well."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Botts had. Foster-Milburn Co., Props., Buffalo, N. Y.

MAY BLOW UP CANAL LOCKS

Ton of Dynamite Stolen and Officials Fear Plot.

Panama, May 23.—The theft of a ton of dynamite from the government warehouse at Gatun has given rise to fears on the part of officials that an attempt to blow up the Gatun locks was contemplated. Three prisoners, two Colombians and a negro, who were arrested on Friday, are charged with stealing the dynamite. The police traced the explosive to the negro's house. Colonel Goethals admitted that there were defects in the steel locks. He refused to talk further and referred the correspondent to Colonel Hodges, who said that his files were not at hand, but that details had been sent to Washington.

The civilians accused were employees of Liptons, Limited. Sentence was deferred until May 25.

T. R. TALKS ABOUT NEW HAVEN

Colonel Comments on Inquiry and His Advice to Mellen.

Oyster Bay, N. Y., May 23.—There was a steady stream of Progressive party politicians up to Sagamore Hill yesterday to see Col. Theodore Roosevelt.

He found time to go over carefully the testimony of Charles S. Mellen before the interstate commerce commission. What he read convinced him that his brief statement of corporations in the last Roosevelt administration, had explained everything was insufficient to meet the situation. So he telegraphed to Mr. Smith, now an attorney at Hartford, Conn., asking him to make public a letter which he (Smith) wrote to the colonel in 1912 recalling the circumstances about which Mellen told.

Wallingford, Conn., May 23.—In refuting some of Charles S. Mellen's testimony, Herbert Knox Smith denied Colonel Roosevelt had made any promises.

British Steamer Reported Burning.

SAVED J. P. MORGAN FROM INDICTMENT

Mellen Asserts Late Financier Engineered Grand Trunk Deal—Made Self "Goat."

WOULD KILL BANKER, FEAR

Tells Son, Who Sought to "Fire" Him That Father Deserved Shame He Suffered—Hearing to Be Resumed Tuesday.

Washington, May 23.—A dramatic climax marked the close of the sensational testimony of Charles S. Mellen, former president of the New Haven railroad, before the interstate commerce commission. With evidence of deep emotion Mr. Mellen declared that the late J. Pierpont Morgan was cognizant of the Grand Trunk negotiations on which Mellen was indicted for criminal violation of the Sherman anti-trust act and that he himself "took the indictment that belonged to Morgan," believing it would have killed the aged financier if he had been indicted.

After reciting his efforts to shield the elder Morgan the witness betrayed evidence of resentment in telling how the present J. Pierpont Morgan had suggested a "change in the presidency of the New Haven."

At this suggestion Mr. Mellen declared with emphasis: "I called his attention to the fact that I had been suffering under the humiliation of an undeserved indictment to protect his father. He seemed quite affected; he turned to the window to compose his feelings, and returned to the conversation with the remark that his father's condition of health at that time was such that it would undoubtedly have killed him if he had been indicted."

"That was the condition I understood the elder Morgan was in when I took the responsibility upon myself and took the indictment that belonged to him."

Details Elder Morgan's Work.

Taking up the Grand Trunk transaction on which Mellen's indictment was returned by a grand jury at New York, Joseph W. Folk, counsel of the commission, asked:

"Did Mr. Morgan have anything to do with this negotiation for the exchange of the Ontario & Western with the Grand Trunk?"

"He did," replied Mr. Mellen.

"What?"

"He took a very active part in the negotiation."

"What part can you tell, if you know?"

"I did not know that Mr. Morgan knew there was a negotiation on until he came into my office when I had an appointment with Mr. Smithers and Mr. Chamberlain, and he told them what he thought they ought to do to have peace between the New Haven and the Grand Trunk interests. He told of a previous negotiation, which he said 'extended over 20 years,' and that he bought a steamship line of the Grand Trunk interests on the understanding he was to have the New London Northern for the New Haven road, but they never carried out their agreement."

Morgan Demanded a Road.

"This negotiation, he said, was with Mr. Smithers' predecessor, Sir Charles Rivers Wilson. He thought it was a mistake; that they had not kept faith with him, and he was quite emphatic. He told them they should give up the New London road; that would be the only thing, in his judgment, that would ever result in permanent peace between the two properties."

"Mr. Morgan retired, and I told Mr. Chamberlain and Mr. Smithers that we would continue the conference on the basis that they should give no further attention to the question of surrendering the New London road; they might do as they pleased with it; I did not care. The worst punishment I wished to see inflicted upon them was the completion of their line into Providence. If they felt there was enough in the situation to warrant making a traffic agreement with us for the interchange of business for the joint use of the lines along the Connecticut river between Windsor and White River Junction and between Windsor and Brattleboro I was glad to do it."

"I was asked to put my views in the form of a proposition or contract, which I did. It was submitted to them, and within a week the grand jury proceedings commenced in New York and I was indicted."

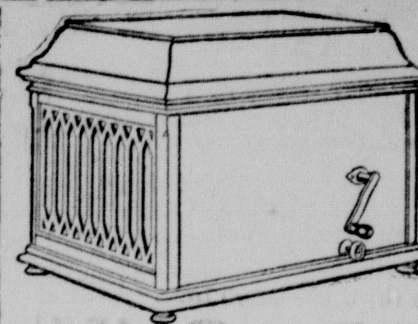

"Did you write a letter to the district attorney taking the responsibility?" asked Mr. Folk.

"I did, and I did it for the sole purpose of shielding Mr. Morgan," Mr. Mellen departed for New York and thence will go to New England for a rest. He is subject to recall at any time.
